

SUNRISE PEPPER

(CAMBODIA) IMPORT EXPORT CO., LTD

SUNRISE ORGANIC KAMPOT PEPPER

COMPANY PROFILE

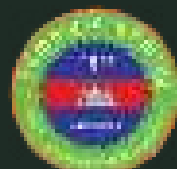

As a Cambodian, we are proud of our world's finest pepper, Kampot Pepper. So, in 2014 our family started a 4.3ha pepper plantation and obtained the Organic Certificate by Ecocert (a certification body specializes in organic and sustainable practices) in 2019, and then SUNRISE ORGANIC KAMPOT PEPPER was created to reserve this pure pepper for the world.

SUNRISE PEPPER (CAMBODIA) IMPORT EXPORT CO., LTD was established in 2019. We are a member of KPPA's (Kampot Pepper Promotion Association), an interprofessional institute established to promote and protect Kampot pepper, Kampot pepper producers, traders and customers. We promises our consumers to provide the highest grade and the most authentic Kampot pepper grown in Kampot province, because at our farm, every tree is meticulously cultivated and every peppercorn is our heart's content. Our motto "SUNRISE plants pepper with love"

G.I.

Certified organic by **ECOCERT**

**Kampot pepper is
considered to be the
finest pepper in the
world.**

SUNRISE ORGANIC KAMPOT PEPPER

Black PEPPER

Picked before the berry has fully ripened, then allow to dry under the sun.

This pepper has far more peppery note than white pepper and is a bit more spicy than red pepper. It is relatively universal, you can add it to your general food, specifically red meats and vegetables.

SUNRISE ORGANIC KAMPOT PEPPER

White PEPPER

Without the outer skin, black peppercorns become white peppercorns.

This pepper is to choose more for its peppery flavor and color than for its power, for example white sauce and mashed potato.

Red PEPPER

Red peppercorn is rare because they are made from fully matured berry.

Red pepper tends to have more heat but with a unique tasting note of delicious candied fruit. This type of pepper will delight you when served with white meat and seafood or sprinkle on top of desserts like apple pie and vanilla ice-cream.
